💼 PROFESSIONAL EXPERIENCE

Eventix   Mar 2023 – present
Lead Frontend Developer 🔗   Eindhoven, Netherlands
- Contributed to building a new dashboard for organizers to set up their events.
- Migrated the dashboard from Vue 2 to 3 while introducing a new design system.
- Created a component library that enforces Eventix's design system.
- Led the organizer-facing team to build several features for the new dashboard, migration, and design system implementation.
- Tested components with Vitest and Vue Test Utils and the dashboard with Playwright tests.

HappyGreen 🔗

Software Engineer   Jul 2020 – Feb 2023 | Eindhoven
- Built multiple projects from scratch (architecture, wireframes/designs, implementation, deployment & testing).
- Developed the current custom Shopify webshop for WEAR 🔗 .
- Led the development teams in developing the apps.
- Assisted several interns with their projects and research.

Graduate Software Development Intern   Feb 2020 – Jul 2020 | Eindhoven
- Researched possibilities to reduce food waste in Panama.
- Designed the architecture, wireframes, and parts of the app.
- Developed two hybrid mobile apps with React Native called HappyEat and HappyEat Business 🔗
- Held interviews with the user base to improve the app and presented a crash course for other employees to work with React Native.

Mentech Engineering   Oct 2019 – Feb 2020 | Eindhoven
Software Developer 🔗
- Worked on a 6-month project (Scoor je PR! 🔗) to enable and motivate disabled people to exercise. I mainly worked on the backend functionalities. *Stack: Java, Spring Boot, Quarkus, Serverless AWS, NestJS & PostgreSQL*

wownity BV   Aug 2018 – Jan 2019 | Helmond
Software & Blockchain Development Intern
- Researched a way to create transparency from company to user by connecting the company's bank balance and transactions to the blockchain. *Stack: VueJs, .NET, Solidity & Blockchain.*

  React, NextJS, React Native, VueJS, JavaScript, TypeScript, TailwindCSS, Shopify, Redux, Vitest, Playwright

Interpersonal Skills
  Teamwork, Communication, Quick learner

Backend Development
  PHP, Laravel, NodeJS, NestJs

📁 PROJECTS

FindARunClub 🔗
Join the Run Club revolution!
  As an avid runner myself I love the idea of a run club. Finding these clubs was not the easiest part. This search platform helps runners find new local run clubs to join*.

  Built with NextJS, TailwindCSS and Pocketbase as the backend/API.
  Currently only operating in The Netherlands.
